

Sakaki

We will continue to study, develop, and create wood products using the motif of a “gentle oval shape.”

Woodenware set for sake with the gentle texture of wood
The gentle oval shape is achieved through the integration of the manual hand-working skills of craftsmen and the modern techniques of an NC woodworker. The edge features a delicate curve for a soft touch.
In addition to sake, you can also use these products as a tea set.

Earthquake disaster revival goods

“Yottoto” Object • Accessories

They are the goods which suffered a great deal of damage for the earthquake disaster, and made the form the heart in which it does not lose.

Even if it topples a sailboat, it certainly rises.

Any rough sea is not lost.

In this product, we express the Japanese spirit of overcoming and rising above difficulties.

It is the optimal as a present because of a good-luck article and a lucky item.

There are wooden object and accessories.

※I am allowed to contribute for earthquake disaster revival of some sales.

A ((O)) DAEN

“DAEN” means “oval” in Japanese.

The brand name “DAEN” symbolizes the combination of the skills of craftsmen with modern techniques.

Precaution :

Please do not put these wood products in dishwashers or microwave ovens.

For these products, we use urethane and other coating materials conforming to the No.

20 standard specified in the Food Sanitation Act.

The products differ slightly in size and color because they are made by hand.

The tones and textures of the products vary because they are made of natural wood.

These products will be your “one of a kind.”

For product improvement, I change a shape without a notice.
